"We shape our buildings; thereafter they shape us"

Winston Churchill

Percepire le emozioni che uno spazio può comunicare, è il punto di partenza di questa ricerca. Immagini di case, scorci urbani, edifici, che respirano e trasmettono suggestioni di storia, umanità, stili di vita.

Feeling the emotions that a space can communicate is the starting point of this research. Images of houses, urban sights, buildings that breathe and transmit influences of history, humanity, lifestyles.

Il gres fine porcellanato a massa colorata rappresenta la più avanzata espressione qualitativa dei prodotti ceramici per pavimenti. Viene ottenuto attraverso la miscelazione di argille pregiate, di feldspati, quarzi ed altre sostanze naturali raffinate ed omogeneizzate attraverso atomizzazione. L'alta qualità delle materie prime, la forgiatura mediante presse ad alto tonnellaggio e la cottura ad elevatissima temperatura consentono di ottenere lastre di eccezionale resistenza e compattezza, idonee agli impieghi più severi.

The fine porcelain stoneware with coloured body represents the most advanced quality expression of floor ceramic products. It is obtained through mixing precious clays, feldspars, quartz and other natural substances refined and homogenized through spraydrying. The high quality of the raw materials, the shaping by high tonnage presses and the firing at extremely high temperatures enable to obtain exceptionally resistant and compact slabs, suitable for the most demanding applications.
